

MEAN Stack Internship Assignment - 5

1. Write a function in arrow function format to check whether a number is perfect or not. A perfect number is a positive integer that is equal to the sum of its all proper positive divisors except the number itself. 6 is perfect number as $1 + 2 + 3 = 6$, 28 is another perfect number as $1 + 2 + 4 + 7 + 14 = 28$

Marks : 10

2. Take an array as input like the following

If array is `[]` then it should print 'Nothing available to Print'

If array is `['Ironman']` then it should print 'Ironman'

If Array is `['Ironman','Captain America']` then it should print 'Ironman and Captain America'

If Array is `['Ironman','Captain Amaerica','Hulk']` then it should print 'Ironman, Captain America and Hulk'

If Array is `['ironman','Captain America','Hulk','Thor']` then it should print 'Ironman, Cpatain America and Others'
